## PLATFORM OFFERINS

### CONFIGURE & LAUNCH

Our no-code builder empowers you to effortlessly create custom branding, easily load risk questions, smoothly create ratings, simply set up referral triggers, configure pre-renewals automatically, and manage your workflow..

### CHOOSE CHANNELS

By default, multiple channels are provided, however, you have the option to select the desired channel, including mobile applications, direct-to-consumer webform, broker portal, or embedded APIs.

### MAINTAIN POLICY LIFECYCLE

Access all aspects of a policy, including the initial quote, invoices, , renewals, claims, and any associated notes, documents, and messages.

### DOCUMENT MANAGER

Generate and Issue documents email/print. Store & manage all customer documents in one place.

### CLAIMS

An end-to-end process, allowing to enter the FNOL, followed by claims officers' validation, assessment, and investigation. It then proceeds to adjustment, payment, and finally settlement.

### ACCOUNTING & FINANCE

Easily view your trust account, keep track of all payables, receivables, & record all billing as soon as a policy is bound. Also, you can reconcile receipts, set up automatic payment reminders, & more.

### REPORTING DASBOARD

Quickly generate standard reports with a single click or create custom reports, such as bordereau, using various filters for tailored business insights and decision-making.
